- Good communication skills in English, Hindi, Punjabi.
- Problem analysis, use of judgement and ability to solve problems efficiently which enables me to make effective walkthrough or plan to solve a problem.
- Adaptive learner focused and eager to take on new challenges.
- Creative approach to develop from scratch. Efficient in carving out complex applications using basic tools.

Technical Skills

- **Languages and Frameworks** – C, C++, Java 8, JavaScript, TypeScript, Node.js, React JS, React Native, Angular, Angular Material Design, HTML 5, CSS 3, SASS, Express.js, Handlebars.js, jQuery, Relational Database with SQL and non-relational database(Mongo DB), Basic Unix/Linux Command line, Bootstrap 4
- **Tools** – Visual Studio, VS Code, IntelliJ, Microsoft SQL Developer, MS Office, Firebase, Android Studio, Star UML, Adobe Photoshop, NPM, Yarn
- **Operating Systems** – Windows 7, 10, Linux And Macintosh
- **Source Control** – Git and SVN

Education

Computer Programming and Analysis Advance Diploma

Seneca College, Toronto

January 2017 – April 2020

Graduated with honors

Experience

Programmer at Logistics Software (Toronto, ON) – 1.5 Years

Company Website: <http://www.logisticsoftware.com/>

April 2018 – April 2019 (12 Months)

February 2020 – May 2020 (4 Months)

- Developed a responsive web application using Angular 8, Typescript, Javascript, HTML 5, Bootstrap 4, CSS 3.
- Used C# and .NET to implement basic features in RESTful API
- Used MVC architecture to create an application that uses RESTful API to load and serve data efficiently and securely.

Crew Member in Wendy's | Part-Time (May 2017 – July 2020)

Worked as a Crew member in Wendy's which involved me operating at several positions.

Shift Supervisor in Wendy's | Full-Time (August 2020 - Present)

Working as a Shift Supervisor and managing resources and day to day activities

Projects

• Aid Management Application

Using C++, created a program that manages the list of goods needed to be shipped to the area. Along with features be able to keep track of the quantity of items needed, the quantity on hand, and store them in a file for future use.

• React Native Mobile and Web Application

An application developed for iOS, Android and Web using React Native on the client side and Node Js and Express for the back end to develop a RESTful API based on MVC architecture.

Source Code for Back End: <https://github.com/jatinAroraGit/recipe-box-api>

Source Code for Front End: <https://github.com/jatinAroraGit/recipe-box-app>

• Open Source Contributions

Worked with open source contributors on variety of projects including Seneca CDOT's telescope project (<https://github.com/Seneca-CDOT/telescope>).

• Other Projects

Contributed to open source community projects using React, Java and Kotlin. Created various websites that use React on front end to access and display information from a RESTful API.
